

Signalling Project Manager (M/F)

Belgorail is a railway certification body created in 2004 in response to European regulatory changes. The company belongs since 2017 to the Certifer group, one of the worldwide leader in the independent assessment. It is located in Brussels and is acting as a designated body in Belgium, France, Luxembourg and Spain and as notified body+ at European level. Belgorail is also providing services in the field of safety+ and is recognized as Assessor (ISA) for independent safety assessment and as Assessment Body (AsBo) for risk management assessment following the common safety methods (CSM-RA).

In order to reinforce its Signalling department, Belgorail is looking to recruit an experienced Signalling Project Manager to carry out Signalling system assessments.

Responsibilities

He / She will be responsible for day-to-day project management of on-board and trackside signalling assessments:

- ✓ analyse of the customers requests ;
